CHURCH OF GOD SINGAPORE

Website Guide

How to use the church website, for members and admins.

What's inside

PART 1

For members

Everyone, with or without an account.

- What's on the website
- Creating your account
- Taking attendance with a QR code

PART 2

For admins

Church staff and volunteers who manage the site.

- Managing events
- Attendance records and members
- Managing announcements
- Attendance links and QR codes
- Which events appear for check-in

Good to know

- The website works on any phone, tablet or computer. No app to install.
- All dates and times on the website are in Singapore time.
- The website address is **cogs-web.vercel.app**.

PART 1

For members

Seeing what's on, creating your account, and taking attendance.

1. What's on the website

Anyone can open the website. You don't need an account to see what's happening.

Announcements

Upcoming church news. If there's a **Register** button, tap it to sign up. It disappears after the registration deadline.

Upcoming events

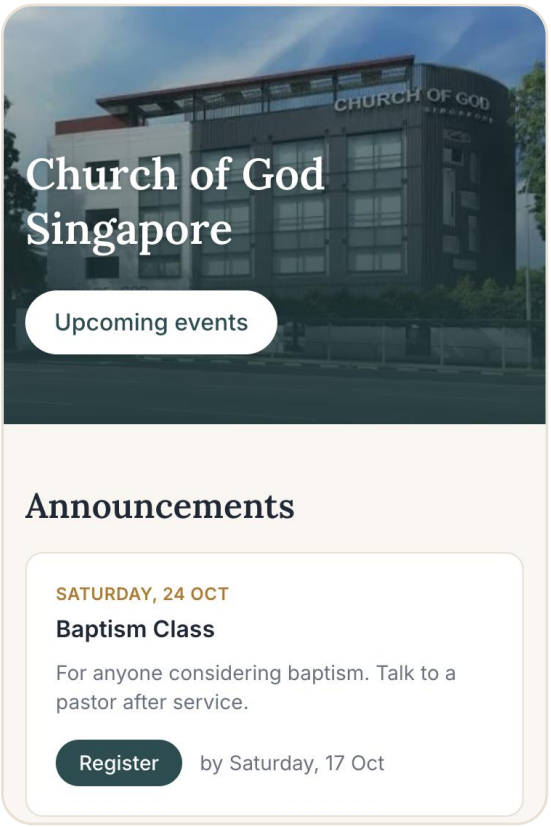

Everything happening in the next two weeks, grouped by day, with the time and location of each event.

Find us

Our address, with a link that opens Google Maps.

Upcoming events, grouped by day

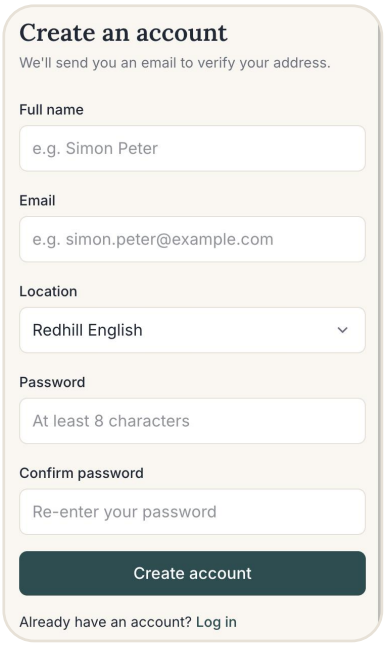

The home page

2. Create your account

You only need to do this once. You need an account to take attendance.

1. Tap **Log in** at the top right, then **Create account**.
2. Enter your **full name**, **email**, **location** (your usual congregation) and a **password** of at least 8 characters.
3. Check your email and tap the **verification link**.
4. Log in with your email and password. You're all set!

The sign-up form

If something goes wrong

- **No email?** Check your spam folder. You can also ask for a new link on the *Check your email* page.
- **"Link expired or already used"?** Each email link works only once. If you already tapped it, just log in.
- **Forgot your password?** On the Log in page, tap **Forgot password?** and we'll email you a link to set a new one.

3. Taking attendance

Each location has its own QR code, usually placed near the entrance. Scanning it takes you straight to that location's check-in page.

Scan the QR code at your location ▶ **Log in** if asked (first time only) ▶ **Choose** your event, then tap I'm here ▶ **Done!** Attendance recorded

1. Open your phone's camera and point it at the QR code. Tap the link that appears.
2. If you're asked to, log in. *First time?* Tap **Create account**. Your location is filled in for you.
3. Choose the event you're attending and tap **I'm here**.
4. You'll see **Attendance recorded**. That's it!

Good to know

- You can check in from **30 minutes before** an event starts until it **ends**.
- Only events that take attendance are listed. **Combined** events appear at every location.
- You can check in once per event. Scanning again shows *"You're already checked in"*.
- *"No events open for check-in right now"* means it's too early, the event has ended, or the event doesn't take attendance.

PART 2

For admins

Managing events, announcements, members, and attendance.

Getting started

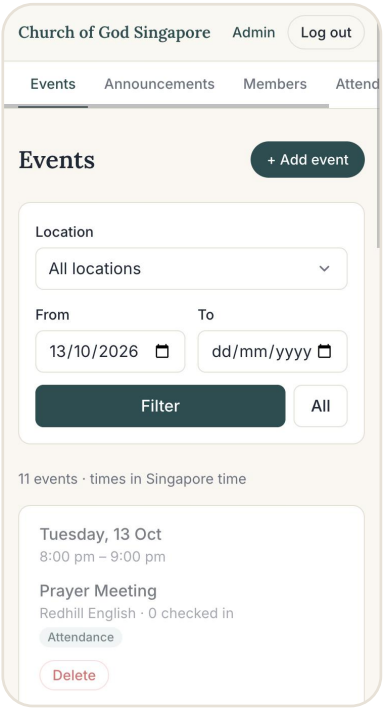

Admin access is given by the website manager. You can't make yourself an admin from the website. Once you're an admin, an **Admin** link appears at the top of every page. It opens four tabs:

Tab	What it's for
Events	See, add and delete events, and see how many checked in.
Announcements	See, add and delete announcements on the home page.
Members	Look up everyone who has an account.
Attendance	See every check-in, filtered by location or event.

1. Managing events

The events list

- Starts from **today**. Use the filters to pick a location or date range. **All** shows every event.
- **Greyed-out** events have already ended.
- Events that take attendance show an **Attendance** tag and how many people **checked in**.
- **Delete** removes an event. **Careful:** this also deletes its attendance records.

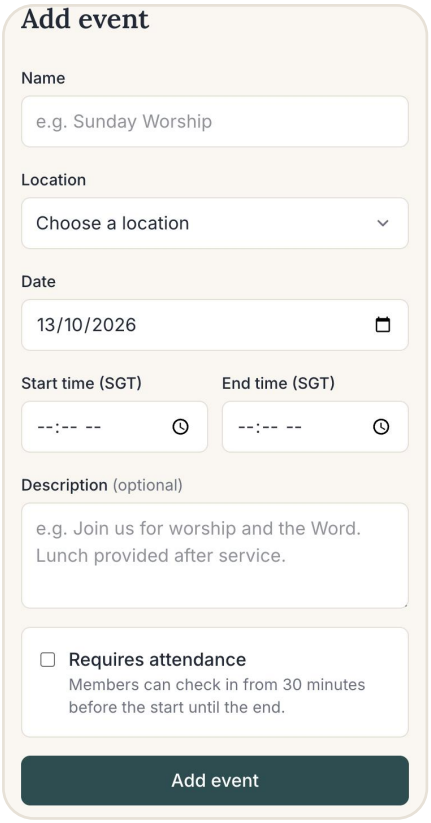

Events list

Adding an event

Tap **+ Add event** and fill in:

- **Name**, for example Sunday Worship.
- **Location**: Redhill English or Combined. Combined events appear for every location.
- **Date**, **start time** and **end time**, in Singapore time. Start and end must be on the same day.
- **Description** (optional).
- **Requires attendance**: tick this for services and meetings where members check in.

> **Tip: changing an event**
>
> - Events can't be edited on the website yet. Delete the event and add it again, ideally before anyone checks in, or ask the website manager to change it.

Add event form

2. Attendance records

Every check-in, newest first. Each row shows the member, the event and the time they checked in. Use the filters to narrow it down:

Filter	Shows check-ins…
Event location	for events held at that location (e.g. all Combined events).
Member's location	by members who belong to that congregation.
Event	for one specific event. Pick it from the list (e.g. last Sunday's worship).

Tip: to count attendance for one service, choose it in the **Event** filter. The total appears at the bottom (e.g. *1–25 of 87*). The Events tab also shows a count for each event.

3. Members

- Lists everyone with an account: name, email, location and the date they joined. Admins are marked **Admin**.
- Search by **name** or **email** (part of it is enough), or filter by **location**. 25 people per page.

4. Managing announcements

What appears on the home page

- Announcements whose **date** or **register-by date** is today or later.
- The soonest ones come first, up to 6 at a time.

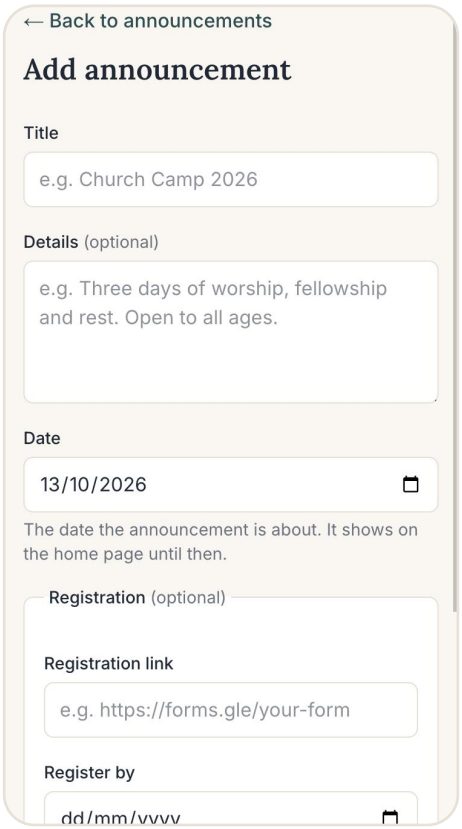

Adding an announcement

Under **Announcements**, tap **+ Add announcement** and fill in:

- **Title**, for example Church Camp 2026.
- **Details** (optional): a sentence or two.
- **Date**: the day the announcement is about. It stays on the home page until then.
- **Registration link** (optional): for example a Google Form. This adds a **Register** button.
- **Register by** (optional): the Register button is hidden after this date. It needs a registration link.

The announcements list

- Filter by date. An announcement matches if its date *or* its register-by date is in the range.
- Registrations past their deadline are marked *registration closed*. Use **Delete** to remove an announcement.

Add announcement form

5. Attendance links and QR codes

Each location has its own check-in link. Turn it into a QR code so members can scan it. The link only shows that location's events (plus Combined events).

Location	Check-in link
Redhill English	https://cogs-web.vercel.app/**attendance?location=rhe**
Combined	https://cogs-web.vercel.app/**attendance?location=combined**
All locations	https://cogs-web.vercel.app/**attendance**

The part after **location=** is the location's **code**. If the code is mistyped, the page simply shows events from all locations.
New location? Ask the website manager. It will get its own code, link and QR code.

Putting up a QR code

1. Print the **Check-in QR codes** page at the end of this guide. It has a ready-made code for each location.
2. Cut out the code for your location and place it where people arrive, such as the entrance or welcome desk.
3. **Test it:** scan the printed code with your phone before putting it up.

6. Which events appear for check-in

When a member scans a QR code, an event appears in their list only if **all three** are true:

- ✓ **Requires attendance** is ticked on the event.
- ✓ The event is at the **QR code's location**, or it's a **Combined** event.
- ✓ It's between **30 minutes before the start** and the **end time**.

Example: a Sunday at Redhill English

Say these events are set up for one Sunday:

Event	Location	Time	Requires attendance
Sunday Worship	Redhill English	9:00 – 10:30 am	Yes
Lunch Fellowship	Combined	10:45 am – 12:00 pm	Yes
Youth Fellowship	Redhill English	3:00 – 5:00 pm	No

Here's what a member sees after scanning the **Redhill English** QR code:

Scanned at	Events shown	Why
8:15 am	*None yet*	Sunday Worship opens for check-in at 8:30 am.
9:30 am	Sunday Worship	Worship is on. Lunch doesn't open until 10:15 am.
10:20 am	Sunday Worship **and** Lunch Fellowship	Both are open, so the member picks the one they're attending.
11:00 am	Lunch Fellowship	Worship ended at 10:30 am. Lunch is Combined, so it shows here too.
3:30 pm	*None*	Youth Fellowship doesn't take attendance.

A member says their event isn't showing. Check that:

- **Requires attendance** is ticked on the event.
- The event is at the location on their QR code, or it's a Combined event.
- The date and times are right (Singapore time).
- It isn't more than 30 minutes before the start, or after the end.

Check-in QR codes

Print this page, cut along the dashed lines, and place each code at its location. Members scan it with their phone camera to check in.

Redhill English

Scan to take attendance
